WEBForms™ is Now Available

Dear members,

The WEBForms™ tool is now available. You can access WEBForms™ from the Centris® site or by clicking on this icon , which appears in a listing's detailed display in Matrix.

WEBForms™ is a new Web application that will improve the way you work. Because these forms are directly linked to the MLS® database, some of the fields, such as the property's address, will be filled in automatically thereby reducing the risk of errors and saving you time. You can then print, email and save your real estate forms and contracts. WEBForms™ is easy to use and the forms can be used in the same way as those of the ACAIQ.

To take full advantage of the WEBForms™ features, you must use **version 9.1 of Adobe Reader**, which is available on the Adobe website. To download this version, [click here](#).

To help you master this new tool, tutorials that provide step-by-step explanations of the main features of WEBForms™ are available in the Help section. You can watch these tutorials by [clicking here](#). In May, free FAQ sessions will also be offered at the GMREB. Keep your eye on upcoming Vision bulletins to find out the exact dates.

We are confident that you will greatly appreciate this new tool.
